

lip wear

It's smart to retail items that go hand-in-hand with your nail services, like polish and hand lotion, but if you go beyond these basic retail items, it can really set your salon apart from the pack. This month, we're featuring lip wear. From tasty lip glosses to exfoliating lip scrubs, and even some lipstick shades, these products will keep your clients puckered up.

1. **Persé** Fresh Minerals Plumping Lip Gloss uses minerals to improve the skin of lips over time with natural vitamins, botanicals, and sun protection.
